Attached screenshot: [remove image](#)

A screenshot of a virtual world scene. In the foreground, three avatars are walking on a green lawn. One avatar is wearing a red shirt and blue pants, another is wearing a black shirt and blue pants, and the third is wearing a grey shirt and blue pants. In the background, there are large trees with yellow leaves, a white building, and a red double-decker bus. A thought bubble from one of the avatars contains the text: "the Doppler effect doesn't apply to sound in twinkl?".

FB Connect Flow

Facebook Connect

1. Ask to Connect to FB
 - 1.1 - User already logged into FB
 - 1.2 - User FB member/ not logged in
 - 1.3 - New FB user
2. Request special permissions
 - 2.1 - Wall/ News Feed Access
 - 2.2 - Mail
 - 2.3 - Any others?
3. Display Twinity profile with FB wall info
 - Status
 - FB profile pic
 - Friends who are already on Twinity.

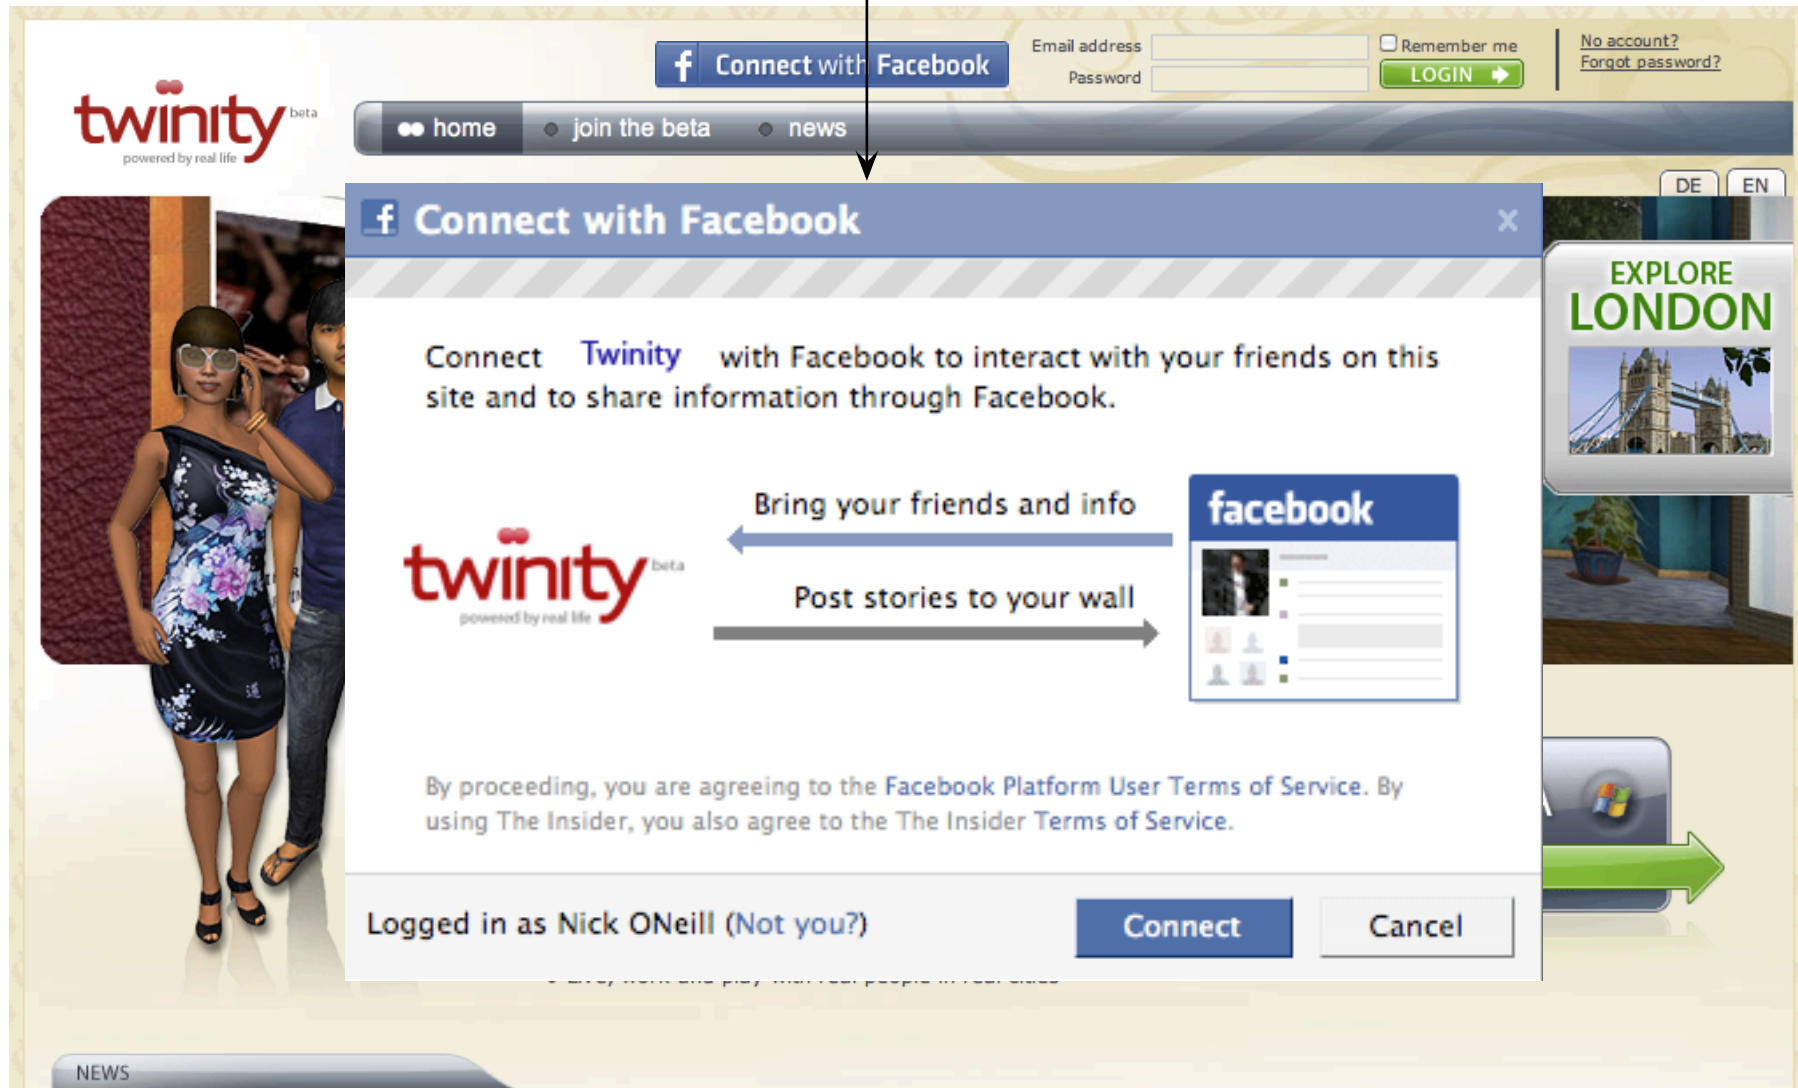

Homescreen

Add FB Connect Button

Step 1 Connect :: 1.1 User is already logged into Facebook

Ask to Connect

Step 1 Connect :: 1.2 User is not logged into Facebook

Ask to Log-in and Connect

The screenshot shows a web browser window with the Twinity website. A modal window titled "Connect with Facebook" is displayed in the center. The modal has a blue header with the Facebook logo and the text "Connect with Facebook". Below the header, the text reads: "Connect Twinity with Facebook to interact with your friends on this site and to share on Facebook through your Wall and friends' News Feeds." To the left of this text is the Twinity logo, and to the right is a Facebook logo. Below the text, there are two arrows: a blue arrow pointing left labeled "Bring your friends and info" and a grey arrow pointing right labeled "Publish content to your Wall". Below these arrows are input fields for "Email:" and "Password:". At the bottom of the modal are three buttons: "Sign up for Facebook", "Connect", and "Cancel". In the background, the Twinity website is visible, featuring a woman in a floral dress on the left and a "EXPLORE LONDON" banner on the right. The top of the page has a navigation bar with a "Connect with Facebook" button, email and password input fields, a "Remember me" checkbox, a "LOGIN" button, and links for "No account?" and "Forgot password?".

NEWS

Step 1 Connect :: 1.3 User is not FB member

Ask to Register and Connect

The screenshot shows the Twinity website interface. At the top right, there are login fields for "Email address" and "Password", a "Remember me" checkbox, and a "LOGIN" button. Links for "No account?" and "Forgot password?" are also present. A navigation bar includes "home", "join the beta", and "news". A central "facebook" overlay prompts users to "Sign up on Facebook to connect with your friends on Twinity". The overlay contains input fields for "First Name", "Last Name", "Your Email", and "New Password", along with dropdown menus for "I am: Select Sex:" and "Birthday: Month:", "Day:", and "Year:". A "Sign Up" button is at the bottom right of the overlay. Below the overlay, a disclaimer states: "By clicking Sign Up, you are indicating that you have read and agree to the Terms of Use and Privacy Policy." A list of features follows: "Explore our first cities: Berlin, Singapore and London", "Make a home for yourself in a virtual world", and "Live, work and play with real people in real cities". On the right, there is an "EXPLORE LONDON" section with a picture of the Tower Bridge and a "THE BETA" banner with a Windows logo. A large green arrow points right, and a link "I have a Mac..." is at the bottom right. The Twinity logo "powered by real life" is on the left, and a "NEWS" button is at the bottom left.

NEWS

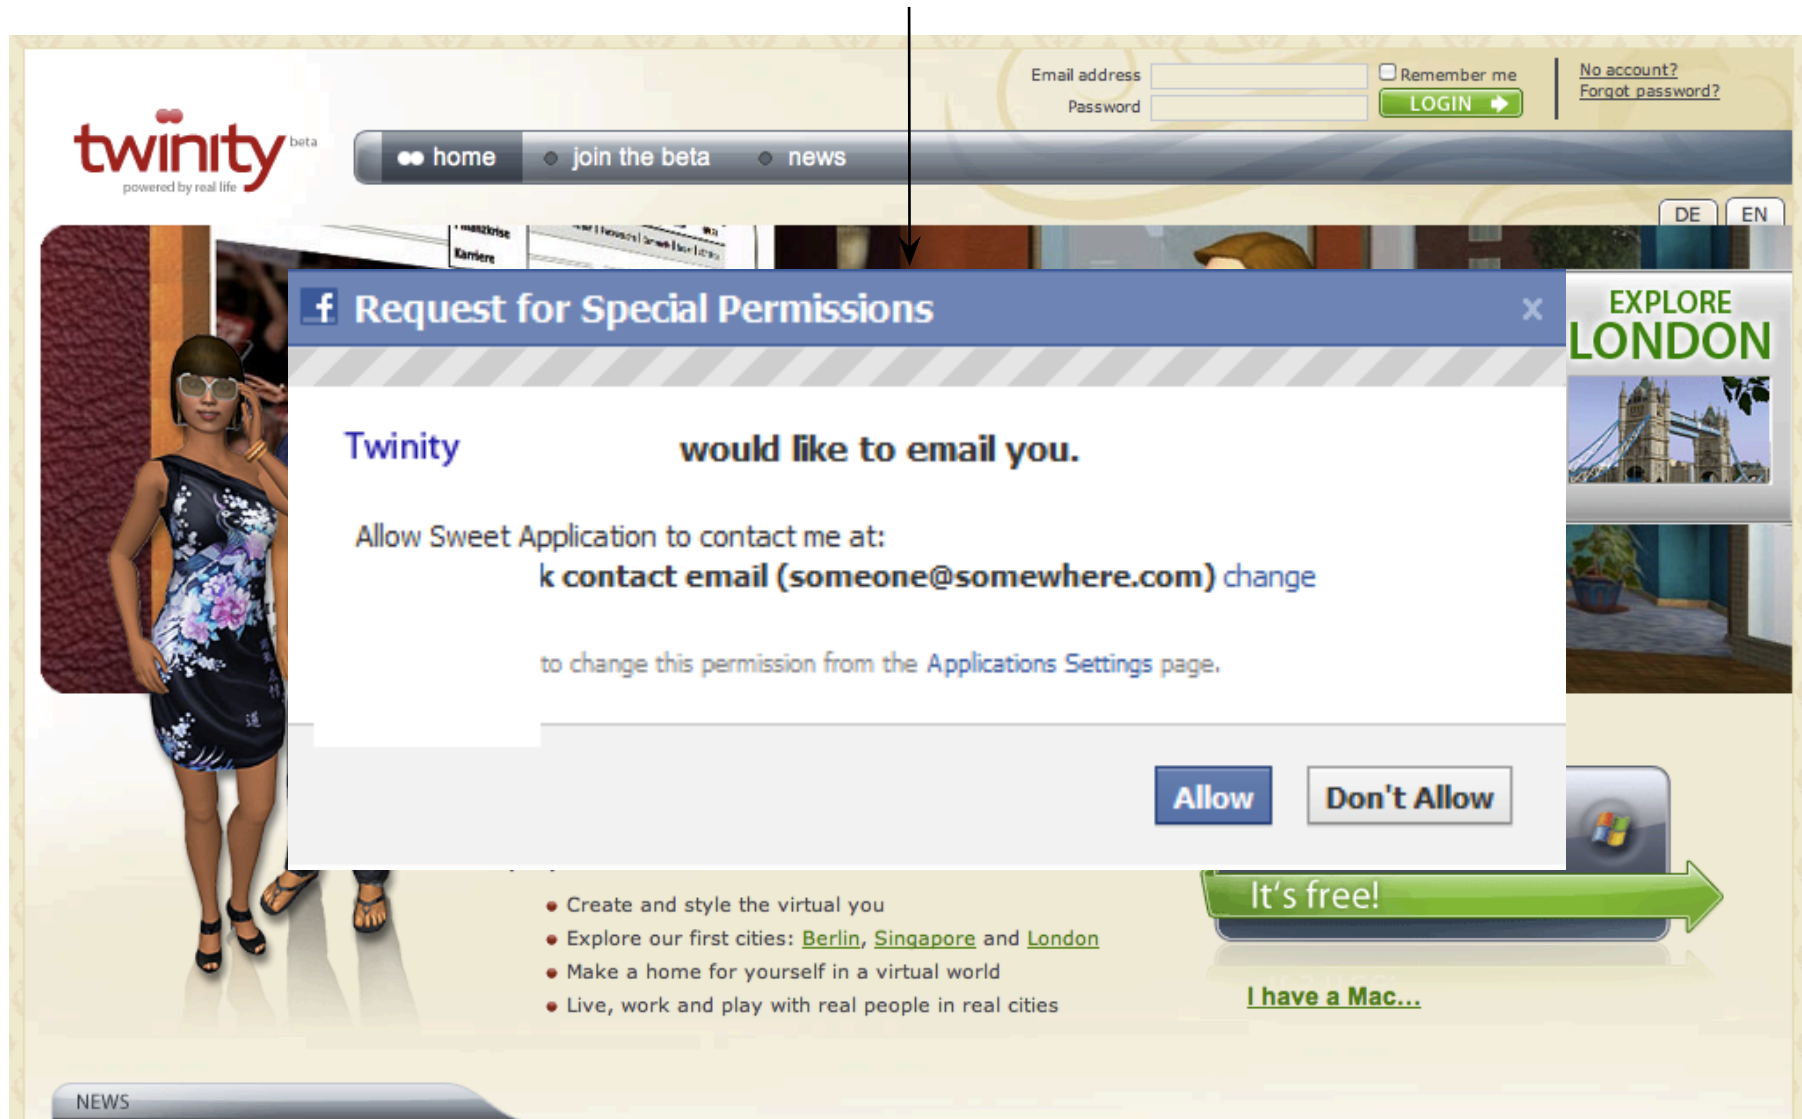

Step 2 - Grant Special Permissions :: 2.1 Grant access to User's Feed and Wall

Ask for Access: This access enables access to `publish_stream`, which includes (is a parent class to) status updates, photo posting, video posting, creating a note, and sharing an item.

Step 2 - Grant Special Permissions :: 2.2 Grant access to User's Email

Ask for Access: This access enables Twinity to send messages to the user directly.

Step 3 - Success :: Take user to Twinity Profile (with FB data filled)

Success: Show Twinity profile with FB username, profile pic, status message, and friends who are already on Twinity displayed.
